New iPD Training:

DDOE remains committed to ensuring access to free, quality assured, online content that is available for Delaware's early care and education community. Moving forward, in addition to the professional development support provided through DIEEC, DDOE recommends the [Individualized Professional Development](#) (iPD) Portfolio developed by the Office of Head Start. iPD hosts free, online, self-paced courses designed for early care and education staff. Courses are available that may be used toward becoming qualified for early care and education positions and annual training hours for licensing. Once you complete a course, you can print certificates showing course completion. To register for an ECLKC (iPD) account, follow these steps.
